PROFESSIONAL SUMMARY

Marketing and e-commerce manager with a hybrid marketing–technology profile and 4+ years across FMCG, beauty, fashion and quick-commerce in the UAE and Europe. I run brand, e-commerce and paid media end-to-end — and I use AI (Claude / Claude Code) as an automation layer over the entire company stack: Shopify, Meta Ads, Google Ads & Search Console, Supabase, Notion, Gmail, Google Drive and Canva, connected via MCP and APIs. With it I have built management dashboards, a full affiliate programme, bundle and discount engines, newsletter automation and an SEO/AEO strategy from scratch. Track record: +30% GMV QoQ across 42 key accounts at Alibaba's Miravia, 6 NPD launches across 50+ markets, and ~40% less manual workload through AI automation. Business Administration graduate (CUNEF, E-Commerce & Fashion Industry specialisation).

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC · Multi-brand FMCG: Befit, Eurocake, SMASH, Flair, Delice | 50+ countries · Dubai, UAE

- **AI automation across the full stack:** run Claude Code with MCP/API connectors to Shopify, Meta Ads, Google Search Console, Supabase, Notion, Gmail, Google Drive and Canva — executing real production changes (products, collections, automatic discounts, campaigns, audiences and catalogues) and cutting manual workload ~40%
- **Shopify (Admin API / GraphQL):** multi-brand catalogue management, smart collections, inventory, automatic discounts and codes, CDN image uploads and sales analysis with ShopifyQL across D2C, B2B draft orders and marketplaces — driving conversion rate (CRO) and average order value
- **D2C site (dofreeze.ae):** build and maintain the headless storefront on Shopify — technical briefs, brand pages, redirects, technical-SEO fixes (canonicals, 404s, indexation) and campaign landing pages
- **Affiliate programme built from zero ("Befit Crew"):** designed the full programme — tiered commissions (6/8/10% by monthly volume), personalised discount codes, creator validation criteria, legal T&Cs, content brief, email sequence, video script and landing page — and selected and implemented the affiliate engine (BixGrow) on Shopify
- **Paid media assisted by AI:** create and optimise Meta and Google Ads campaigns via API — budgets, retargeting audiences, dynamic catalogues, Pixel/CAPI, ROAS diagnostics and broken-feed fixes — with automated reporting
- **Executive dashboards:** built an in-house web app (React + Tailwind + Vite) with daily updates on web traffic, revenue by channel, bundles, gifting and every paid campaign, deployed for the management team
- **SEO + AEO/GEO:** implemented structured data (schema), lms.txt, entities in Wikidata / Crunchbase and Google Business Profile to position the brands both in search engines and in AI answers (ChatGPT, Perplexity, Google AI)
- **Brand & go-to-market:** lead 6 NPD launches end-to-end (brief, packaging, pricing, GTM) across GCC, MENA, Asia, Europe, USA and Africa, plus trade and shopper marketing plans by channel
- **E-retail & quick-commerce:** onboarded and manage the brands on Noon, Talabat, Careem and Deliveroo — listings, content, promotional mechanics and retail execution across modern trade
- **Influencer marketing from zero:** sourcing, briefing, negotiation and management of 25–50 creators per campaign, plus sampling and seeding — driving awareness, UGC and measurable sell-out
