PROFESSIONAL SUMMARY

Growth and e-commerce manager with a hybrid marketing–technology profile and 4+ years across quick-commerce, FMCG, beauty and fashion in the UAE and Europe. I own the full growth stack end-to-end: paid acquisition on Meta and Google (managed via API), conversion-rate and average-order-value optimisation, a referral/affiliate programme I designed and launched from zero, lifecycle and EDM automation, and organic acquisition through SEO and AEO. I build my own reporting — an in-house React dashboard on traffic, revenue by channel and campaign performance — and I use AI (Claude / Claude Code) as an automation layer over Shopify, Meta Ads, Google Ads & Search Console, Supabase and Notion via MCP and APIs, cutting manual workload ~40%. Quick-commerce is my home turf: I was part of the team that built Glovo's retail vertical, and today I grow brands on **Careem, Talabat, Noon and Deliveroo** — while also owning brand strategy and 6 NPD launches end-to-end across 50+ markets. Track record: **+30% GMV QoQ** across 42 key accounts at Alibaba's Miravia. Business Administration graduate (CUNEF, E-Commerce & Fashion Industry specialisation).

WORK EXPERIENCE

Brand & Marketing Manager (Growth & E-Commerce)

Oct 2025 – Present

DoFreeze LLC · Multi-brand FMCG: Befit, Eurocake, SMASH, Flair, Delice | 50+ countries · Dubai, UAE

- **Paid acquisition:** create and optimise Meta and Google Ads campaigns via API — budget allocation, retargeting audiences, dynamic catalogues, Pixel/CAPI tracking, creative A/B testing and broken-feed diagnostics — reporting on ROAS, conversion and cost of acquisition by channel
- **Referral & affiliate growth loop, built from zero ("Befit Crew"):** designed and launched the full programme — tiered commissions (6/8/10% by monthly volume), personalised discount codes, creator validation criteria, legal T&Cs, content brief, email sequence, video script and landing page — and selected and implemented the affiliate engine (BixGrow) on Shopify
- **CRO & AOV:** own the Shopify storefront end-to-end (Admin API / GraphQL) — smart collections, automatic discounts and codes, bundles and gifting mechanics, checkout and UX — lifting conversion rate and average order value across D2C, B2B draft orders and marketplaces
- **Growth analytics & reporting:** built an in-house web app (React + Tailwind + Vite) with daily reporting on traffic, revenue by channel, bundles, gifting and every paid campaign, deployed for the management team; sales analysis in ShopifyQL and GA4
- **Lifecycle & retention:** newsletter and EDM automation, segmented flows and promotional calendars to drive repeat purchase and reactivate lapsed customers
- **Organic acquisition (SEO + AEO/GEO):** technical SEO on the headless dofreeze.ae storefront (canonicals, 404s, indexation, landing pages) plus structured data, llms.txt and entities in Wikidata / Crunchbase / Google Business Profile to win visibility in both search engines and AI answers (ChatGPT, Perplexity, Google AI)
- **AI automation across the full stack:** run Claude Code with MCP/API connectors to Shopify, Meta Ads, Google Search Console, Supabase, Notion, Gmail, Google Drive and Canva — executing real production changes (products, collections, automatic discounts, campaigns, audiences and catalogues) and cutting manual workload ~40%
- **Quick-commerce growth:** onboarded and grow the brands on **Careem, Talabat, Noon and Deliveroo** — listings and content, digital-shelf optimisation, in-app promotional mechanics, basket building and retail execution; day-to-day owner of the platform relationships
- **Creator-led acquisition:** built the influencer programme from zero — sourcing, briefing, negotiation and management of 25–50 creators per campaign, plus sampling and seeding — driving UGC and measurable sell-out
- **Brand & go-to-market:** lead 6 NPD launches end-to-end (brief, packaging, pricing, GTM) across GCC, MENA, Asia, Europe, USA and Africa

- Grew 42 key accounts on a top-5 marketplace to **+30% GMV growth QoQ** through pricing strategy, assortment optimisation and conversion-led promotions
- Owned the Flash Sales channel for Beauty, Fashion & Home — designing the promotional mechanics and executing commercial plans against P&L targets, reporting directly to the CEO
- Continuously analysed ROI, ROAS, conversion, traffic and retention to optimise channel performance and forecasting accuracy
- Led category expansion as PIC Fragrances, onboarding 30+ new stores in two months, including the official distributors of leading Arabian & oud houses (Arabian Oud, Lattafa, Swiss Arabian, Ajmal)
- Created and led the Beauty Club and Hot on Social projects, boosting visibility, loyalty and repeat purchase

- Part of the team that **built Glovo's retail vertical** — onboarding fashion, beauty and lifestyle brands and expanding the super-app marketplace beyond food delivery into new categories
- Managed strategic XL accounts (KFC, Taco Bell, La Tagliatella, Sushi Shop), driving GMV growth through data-led planning, in-app visibility and bespoke marketing activations
- Led cross-functional teams across marketing, operations, logistics and customer support to launch campaigns end-to-end, and negotiated high-impact commercial deals

- Sell-in / sell-out analysis, promotional effectiveness evaluation and category performance reporting for the chocolate category
- Contributed to NPD launches including Milka Spread and Mini Suchard
