PROFESSIONAL SUMMARY

Marketing and e-commerce manager with a hybrid marketing–technology profile and 4+ years across quick-commerce, FMCG, beauty and fashion in the UAE and Europe. **I am AI-first:** I use Claude / Claude Code as an automation layer over the entire commercial stack — Shopify, Meta Ads, Google Ads & Search Console, Supabase, Notion, Gmail and Canva, connected via MCP and APIs — and with it I have built management dashboards, a full affiliate programme, bundle and discount engines, newsletter automation and an SEO/AEO strategy from scratch, cutting manual workload ~40%. On top of that I run the classic remit end-to-end: brand and NPD, paid media, e-commerce and CRO, key accounts and trade marketing. Quick-commerce is my home turf — I was part of the team that built Glovo's retail vertical, and today I grow brands **on Careem, Talabat, Noon and Deliveroo** for a multi-brand FMCG group selling in 50+ countries. Track record: **+30% GMV QoQ** across 42 key accounts at Alibaba's Miravia and 6 NPD launches across 50+ markets. Business Administration graduate (CUNEF, E-Commerce & Fashion Industry specialisation).

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC · Multi-brand FMCG: Befit, Eurocake, SMASH, Flair, Delice | 50+ countries · Dubai, UAE

- **AI automation across the full stack:** run Claude Code with MCP/API connectors to Shopify, Meta Ads, Google Search Console, Supabase, Notion, Gmail, Google Drive and Canva — executing real production changes (products, collections, automatic discounts, campaigns, audiences and catalogues) and cutting manual workload ~40%
- **Growth analytics & executive dashboards:** built an in-house web app (React + Tailwind + Vite) with daily reporting on traffic, revenue by channel, bundles, gifting and every paid campaign, deployed for the management team; sales analysis in ShopifyQL and GA4
- **Quick-commerce & e-retail:** onboarded and grow the brands on **Careem, Talabat, Noon and Deliveroo** — listings and content, digital-shelf optimisation, in-app promotional mechanics, basket building and retail execution across modern trade; day-to-day owner of the platform relationships
- **Paid media, AI-assisted:** create and optimise Meta and Google Ads campaigns via API — budgets, retargeting audiences, dynamic catalogues, Pixel/CAPI, creative A/B testing and ROAS diagnostics — with automated reporting
- **E-commerce ownership (Shopify Admin API / GraphQL):** multi-brand catalogue, smart collections, inventory, automatic discounts and codes, ShopifyQL analysis across D2C, B2B draft orders and marketplaces; build and maintain the headless dofreeze.ae storefront — brand pages, redirects, technical SEO and campaign landing pages — driving CRO and average order value
- **Affiliate programme built from zero ("Befit Crew"):** designed the full programme — tiered commissions (6/8/10% by monthly volume), personalised discount codes, creator validation criteria, legal T&Cs, content brief, email sequence, video script and landing page — and selected and implemented the affiliate engine (BixGrow) on Shopify
- **Brand & go-to-market:** lead 6 NPD launches end-to-end (brief, packaging, pricing, GTM) across GCC, MENA, Asia, Europe, USA and Africa, plus trade and shopper marketing plans by channel
- **Influencer marketing from zero:** sourcing, briefing, negotiation and management of 25–50 creators per campaign, plus sampling and seeding — driving awareness, UGC and measurable sell-out
- **SEO + AEO/GEO:** implemented structured data (schema), lms.txt and entities in Wikidata / Crunchbase / Google Business Profile to position the brands both in search engines and in AI answers (ChatGPT, Perplexity, Google AI)
