01 • THE DIGITAL-SHELF TRUTH — UAE

7/10

Roughly **7 in 10 e-commerce purchases** are decided **on the first screen of search** — at the title, the image, the rating and the price the shopper sees first. By the cart, the decision is mostly made.

For an FMCG leader, digital-shelf excellence isn't a tactic. **It's where the category is won or lost, every single day.**

The search • **Noon & Amazon.ae**

The cart • **Noon Minutes, Talabat & Careem**

Always Shelf-Ready.

One standard, executed relentlessly: **every hero SKU, 100% shelf-ready, on every UAE digital shelf, every day** — content that converts, availability, review health, search share and media working as one system.

01 · The Perfect Page

Search-optimised titles, A+ rich content, review health and trust badges on every hero SKU — content built to convert, not just to exist.

02 · Search-share dominance

Own the first screen for "toothpaste", "mouthwash" and "kids oral care" on Noon & Amazon.ae through ranking, ratings and availability.

03 · Retail-media engine

Always-on sponsored search and banners tuned to ROAS — the fastest-growing FMCG profit pool as a measurable growth driver.

04 · Q-commerce replenishment

Impulse bundles and 10-minute delivery deals on Noon Minutes, Talabat & Careem — owning the UAE replenishment moment.

05 · The Scorecard

Every metric that matters on one weekly Digital Shelf Scorecard, with clear corrective actions and P&L accountability.
