PROFESSIONAL SUMMARY

Enterprise marketing professional with 4+ years across FMCG, beauty, fashion and e-commerce, and an early, hands-on adopter of generative AI at work. Builds and operates a production AI marketing system on Claude and GPT — designing, testing and iterating prompts (prompt engineering) and reviewing, scoring and QA-ing AI-generated outputs for accuracy, relevance and best-practice quality (AI response evaluation) — to automate campaign planning, content, market research, KPI reporting and client-ready decks. Produces high-quality enterprise marketing content end-to-end: campaign plans, stakeholder communications, performance reports, presentations and project documentation reflecting genuine category best practice. Applies structured, analytical reasoning to marketing decisions and is an expert Microsoft 365 user (Word, Excel, PowerPoint, Outlook, Teams, OneNote, SharePoint). Works independently and to a high standard in a fully remote, multi-market setting across 50+ countries.
