PROFESSIONAL SUMMARY

Marketing professional at the intersection of analytics and applied AI. I build the reporting that links marketing spend to commercial outcomes — KPI dashboards across the funnel (conversion, retention, ROI/ROAS, sell-out) in Power BI, Tableau and Looker — and I build the AI/automation on top of it: at DoFreeze I created a generative-AI system (Claude/GPT) that automates campaign planning, market research, content and KPI reporting, cutting manual workload ~40% and turning multi-day processes into same-day ones. Four+ years across FMCG and top-5 e-commerce (DoFreeze, Alibaba's Miravia, Glovo), fluent in P&L and translating messy data into clear commercial recommendations. Already in Dubai on a residence visa.

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC · Global FMCG distributor | Brands: Befit, Eurocake, Flair | 50+ countries · Dubai, UAE

- Built a practical AI + automation system (Claude / generative AI) that embeds agentic workflows into everyday marketing — automating campaign planning, market research, content and KPI reporting — cutting manual workload ~40% and turning time-intensive, multi-day processes into same-day ones across 50+ markets
- Own end-to-end marketing performance reporting: KPI dashboards across the funnel (traffic, conversion/CRO, retention, ROI, ROAS, sell-out) that link A&P investment to commercial outcomes and feed leadership decisions

- Translate messy multi-market data into clear commercial recommendations for NPD, pricing and channel investment across GCC, MENA, Asia, Europe, USA and Africa
