Dear Hiring Manager,

Paid media is where marketing has to prove itself in numbers, which is exactly why the Paid Media Specialist (Meta) role caught my attention. Meta Ads is something I run hands-on every week: at DoFreeze I own our Facebook and Instagram campaigns end-to-end — from audience research and targeting through creative testing, budget allocation and ROAS reporting — so turning Meta advertising into measurable business results is already my day-to-day.

In my current role as Brand & Marketing Manager at DoFreeze, I plan, launch and optimise Meta campaigns built on segmentation, retargeting and lookalike audiences, running continuous A/B tests across creative, messaging and placements to lower cost per acquisition and lift ROAS. I manage the ad budget across campaigns and placements, produce the performance reports that decide where spend goes next, and run Google Ads and EDM alongside Meta. Because I also own our Shopify store and its conversion rate (CRO), I optimise the full journey from paid click to purchase — not just the ad. Earlier, at Alibaba's Miravia, I analysed ROI, ROAS, conversion and retention across 42 accounts to grow GMV +30% QoQ, so data-led decision-making is second nature.

A few things I'd bring beyond the checklist: I'm an early adopter of generative AI (Claude/GPT) and have built automation that scales campaign planning, creative and reporting — genuinely useful in a fast-paced, test-and-learn environment. I collaborate naturally with design and content teams on ad creative, I'm comfortable owning budgets against ROI, and I'm fully set up to work remotely with a dedicated dual-monitor home office. I'll be straightforward: my Meta work sits inside a broader brand and e-commerce remit rather than a pure paid-media title — but the hands-on campaign, audience, budget and reporting craft this role runs on is exactly what I do every week, and I ramp fast.

I'd welcome the chance to show how I'd build, test and scale Meta campaigns for your partner's business — from audience strategy through creative and budget optimisation to the reporting that keeps ROAS climbing. I'm fluent in English, available to start quickly, and set up for remote work. Thank you for considering my application — I'd be glad to walk through how I'd approach a first 90 days of campaigns.

Best regards,

Paula De Francisco Pérez
