PROFESSIONAL SUMMARY

Analytical category and commercial professional with 5 years across FMCG, Beauty and E-Commerce, and genuine hands-on Q-commerce experience — I have integrated brands into Careem, Noon, Talabat and Deliveroo (onboarding, listings, promo mechanics, retail execution) and worked quick-commerce at Glovo. My core is turning large volumes of category, supplier and customer data into clear insights, dashboards and decks: at Mondelez I owned sell-in/sell-out and promotional-effectiveness reporting for the chocolate category; at Alibaba's Miravia I analysed pricing, assortment, promotions, ROI and conversion across 42 accounts to grow GMV +30% QoQ and presented performance decks up to CEO level. I track the commercial levers this role lives on — sales, pricing, margin, promotions and availability — and understand the Q-commerce model (ads monetization, margin, promo/rebate mechanics). Advanced in Excel/Google Sheets with BI tooling (Power BI, Tableau, Looker), an early adopter of generative AI (Claude/GPT) that I use to automate recurring reporting and build stakeholder-ready dashboards and presentations. Detail-obsessed, proactive, fluent in English and already based in Dubai.
