

BRAND & GROWTH · UAE · A FULL-FUNNEL CAMPAIGN CONCEPT

NO BORDERS

Make Revolut the way the UAE moves money — [send it home before the exchange desk even opens.](#)

AGENDA

The concept, end to end.

- 01 The insight — money born to cross borders
- 02 The big idea — No Borders
- 03 How it works — full funnel, one story
- 04 Audience & corridor strategy
- 05 90-day launch & KPIs
- 06 Why Paula

88%

OF UAE RESIDENTS ARE EXPATS — ONE
OF THE WORLD'S LARGEST REMITTANCE
HUBS

Here, money is born to cross a border.

- For millions of people, "money" isn't local — it's a **monthly journey** to Kerala, Manila, Cairo, Lahore or London.
- Yet the world's average remittance still costs around **6%** and can take days — much of it still sent in cash, in a queue.
- Revolut already **solves** this. The brand opportunity isn't a feature — it's to own the cultural truth that **your money was never meant to stop at the border.**

02 • THE BIG IDEA

NO BORDERS

One ownable idea for the UAE: with Revolut, the border was **never there**. The same platform truth — instant, real-rate, multi-currency — dramatised as the way this country actually lives and sends money.

"Send it home **before the exchange desk even opens**."

Revolut • Transfer

● LIVE RATE

YOU SEND

1,000 AED

THEY RECEIVE • KOCHI

₹23,120 INR

Arrives **in seconds**

0 hidden fees

Dubai → home

no border • no queue • no spread

One story, the whole funnel.

AWARENESS

Own the corridor

Community-true OOH & creators make Revolut the name attached to "sending home".

CONSIDERATION

Expose the rate

Data-driven stories show the real cost of the old way vs. Revolut.

CONVERSION

First transfer

Localised onboarding + a payday-week offer engineered for one activation metric.

RETENTION

Everyday money

From one transfer to multi-currency spend, savings and travel — a daily habit.

BRAND LAYER · EARNS ATTENTION

A cultural truth, not an ad

- One line — **"send it home before the exchange desk opens"** — carried across OOH, social and creators, adapted per corridor.
- Tone of voice & style guide owned locally; global assets adapted to real UAE nuance.

GROWTH LAYER · DRIVES RESULTS

Engineered for the metric

- Paid social & app-install campaigns A/B-tested on creative & offer; scaled on ROAS.
- Winners operationalised into a **regional playbook** so the idea scales without re-inventing it.

The same idea, every stage.

AWARENESS

OOH · CORRIDOR-CUT

Sheikh Zayed Rd & Metro

Billboards & wraps with a different destination city per line, timed to payday week.

AWARENESS

CORRIDOR CREATORS

The people who send it home

Micro-creators per community (Malayali, Filipino, Egyptian, Pakistani) — real UGC, not gloss.

CONSIDERATION

CONTENT · THE RATE EXPOSED

"See what the desk didn't tell you"

Data-driven cost comparisons — the conversion engine of the campaign.

CONVERSION

IN-APP · FIRST-TRANSFER GTM

Zero-fee first send

Localised onboarding + payday-week offer built to drive the first transfer.

RETENTION

CRM + REFERRAL LOOP

One sender, a community

Lifecycle nudges to multi-currency & savings, plus a compounding referral loop.

Prioritised by corridor, not by channel.

Same idea, tuned per community — audience truth → lead message → channel & creator mix.

CORRIDOR	AUDIENCE TRUTH	LEAD MESSAGE	CHANNEL & CREATOR
India	Largest corridor; value-conscious, mobile-first, family remitters	Real rate, arrives in seconds — "before the desk opens"	Malayali/Tamil creators · Meta & YouTube · Metro
Philippines	High trust in community word-of-mouth; frequent smaller sends	No hidden spread; every dirham counts back home	Filipino creators · Facebook groups · referral
Egypt / Levant	FX-savvy, rate-sensitive; growing young professional base	Beat the parallel-rate anxiety with a transparent live rate	TikTok & short-form · rate-exposed content
UK / EU	Premium expats; travel & multi-currency daily use	One card, every currency — spend like a local, everywhere	Premium OOH · lifestyle creators · Metal/Ultra

Launch it. Then prove it.

90-DAY PLAN

WINDOW	ACTIVATION	CHANNELS	STAGE
Wk 1-2	Launch — "No Borders"	OOH + social + PR	Awareness
Wk 3-6	Corridor creators + rate-exposed content	Meta / TikTok / YouTube	Consideration
Payday wks	Zero-fee first-transfer push	In-app + paid social	Conversion
Month 3	Lifecycle + referral loop; scale winners	CRM + referral	Retention

FULL-FUNNEL KPIS

KPI	WHAT IT PROVES	CADENCE
Install → first-transfer activation	The hero metric — the idea works or it doesn't	Weekly
Blended CAC in target corridors	Efficient, corridor-led acquisition	Weekly
Multi-currency MAU / retention	One transfer → everyday habit	Monthly
Referral K-factor	The corridor loop compounding	Monthly
Creative ROAS & test win-rate	Experimentation discipline	Per flight

“No Borders is exactly how I work — take a real local truth, build one idea across the whole funnel, and **engineer it to move the metric.**”

- Leads **brand & growth in the UAE today** — GTM launches, full-funnel campaigns and paid media, in-market.
- Came up inside **hyper-growth global tech** — Alibaba's Miravia (42 accounts, **+30% GMV QoQ**) & Glovo.
- Built an **AI marketing-automation system** (Claude) that scaled repeatable playbooks across **50+ markets**.

Revolut — UAE Brand & Growth

A full-funnel launch blueprint to make Revolut the way the UAE moves money

Prepared by Paula De Francisco Pérez · 20 August 2026 · For: Marketing Manager (Brand) — Dubai / UAE, Revolut

Purpose. This is how I would land in the role: a fast read of the UAE customer and competitive set, one ownable brand idea (“No Borders”), a full-funnel channel architecture from acquisition to retention, and the experimentation and KPI discipline to prove it — built to run with global Growth and regional leadership from week one.

1 • Market & customer insight (UAE)

- **Expat-first market:** ~88% of residents are expats and the UAE is one of the world's largest remittance hubs — money here is inherently cross-border, high-frequency and emotionally loaded (it's family, not just FX).
- **The pain is real:** the world's average remittance still costs ~6% and can take days; much is still sent as cash through exchange houses. Revolut's instant, real-rate, multi-currency product is the answer — the job is brand salience and trust at the moment of sending.
- **Competitive set:** exchange houses (Al Ansari, LuLu), money-transfer apps (Wise, Remitly), neobanks (Wio, Mashreq Neo) and traditional banks. Revolut wins on rate transparency, speed and everyday multi-currency utility — that must be the story.
- **Two jobs, one brand:** the value-conscious remitter (India, Philippines, Egypt, Pakistan) and the premium multi-currency traveller (UK/EU expats) — one idea, tuned by corridor and life-stage.

2 • Positioning & brand platform

Positioning: Revolut = money with **no borders**. The one defensible, locally-true idea — instant, real-rate, multi-currency money that never stops at the border — dramatised as how the UAE actually lives and sends.

Tone of voice: clear, confident, human; never preachy about money. Own a local tone-of-voice and style guide, and adapt global campaigns to genuine UAE nuance (language, corridors, cultural moments) rather than lifting them wholesale.

3 • Full-funnel channel architecture

FUNNEL STAGE	OBJECTIVE	CHANNELS & MECHANICS
Awareness	Own the corridor & the idea	Corridor-cut OOH (Sheikh Zayed Rd, Metro), community micro-creators, PR & earned around the “No Borders” idea
Consideration	Build trust, expose the rate	Data-driven “real cost” content, comparison stories, ASO & organic social, always-on search
Conversion	Drive the first transfer	Paid social (Meta/TikTok), app-install (ASA/UAC), payday-week zero-fee first-send offer, localised onboarding
Retention	One transfer → everyday money	Lifecycle CRM/EDM & push to multi-currency spend, savings vaults & travel; community referral loop

4 • 90-day launch calendar

WINDOW	ACTIVATION	CHANNEL	OBJECTIVE
Wk 1-2	Launch "No Borders" — idea & hero assets	OOH + social + PR	Salience & corridor awareness
Wk 3-6	Corridor creators + rate-exposed content	Meta / TikTok / YouTube	Consideration & trust
Payday weeks	Zero-fee first-transfer push	In-app + paid social	First-transfer activation
Month 3	Lifecycle + referral loop; scale winners	CRM + referral	Retention & compounding growth

Anchored to real UAE moments: monthly payday cadence (salaries land ~25th), Ramadan & Eid (family & giving), summer travel (multi-currency), and DSF/DSS retail peaks.

5 • Experimentation & growth mechanics

- **First-transfer offer:** the single activation metric; test offer type, threshold and payday timing to find the most efficient trigger.
- **Creative testing:** structured A/B on hook, corridor message and creator format; scale on ROAS and cost-per-first-transfer, kill the rest fast.
- **Referral loop:** engineered around how these communities actually share — a low-CAC, compounding growth engine measured by K-factor.
- **Playbook operationalisation:** winning creative, audiences and mechanics packaged into a regional playbook so the idea scales to other markets without re-inventing it — my AI-automation background makes this fast and repeatable.

6 • KPIs, funnel economics & cadence

KPI	WHAT IT PROVES	CADENCE
Install → first-transfer activation rate	Hero KPI — the concept works	Weekly
Blended CAC in target corridors	Efficient, corridor-led acquisition	Weekly
Multi-currency MAU & retention	One transfer becomes an everyday habit	Monthly
Referral K-factor	The corridor loop compounding	Monthly
Creative ROAS & test win-rate	Experimentation discipline & spend efficiency	Per flight
Brand salience / prompted awareness (UAE)	Brand-building, not just performance	Quarterly

Cadence: weekly growth stand-ups on activation & CAC with the global Growth team; monthly brand & funnel review with regional leadership; quarterly brand-tracking and playbook updates.

Why I can land this fast: I lead brand & growth in the UAE today, came up inside hyper-growth global tech (Alibaba's Miravia — 42 accounts, +30% GMV QoQ; Glovo), run go-to-market launches and full-funnel paid media end-to-end, and built an AI marketing-automation system that scales repeatable playbooks across 50+ markets. "No Borders" is the way I'd put that to work for Revolut in the UAE.
