PROFESSIONAL SUMMARY

Creative, analytical and hands-on growth & digital marketing manager with 4+ years across E-Commerce, FMCG, Beauty and Fashion who turns paid media, social and content into qualified leads and revenue. At DoFreeze I set up and optimise Google Ads and Meta Ads (Facebook & Instagram), own Instagram strategy end-to-end — content planning, Reels and carousels, posting, growth and engagement — develop original campaign ideas independently, and guide content, design and creator teams, while improving landing pages and store UX for conversion (CRO) and reporting on performance, lead quality and cost per lead. Earlier, as a Key Account / Account Manager at Alibaba's Miravia and Glovo, I handled clients directly — qualifying, negotiating, arranging meetings and following up in the CRM — growing GMV +30% QoQ across 42 accounts and onboarding 30+ new stores in two months. Early adopter of generative AI (Claude/GPT) to scale content, campaign planning and analytics. Excellent English (C1), already based in Dubai.

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC • FMCG e-commerce & distribution | Brands: Befit, Eurocake, Flair | 50+ countries • Dubai, UAE

- Set up, manage and optimise Google Ads and Meta Ads (Facebook & Instagram) campaigns — audience building, creative A/B testing, budget and bid management — analysing campaign performance, lead/traffic quality, cost per result and conversions to continuously improve ROI and ROAS
- Own Instagram strategy end-to-end — content planning, posting cadence, growth and engagement — developing original Reel, carousel and campaign ideas, and scaling an influencer/UGC programme from zero (25–50 creators per campaign) to attract attention and demand from high-value audiences
- Guide content, design and videography workflows — briefing and directing creators and designers, setting the creative direction, and turning original ideas into on-brand assets that perform across paid and organic channels
- Improve landing pages and website/store UX from a conversion perspective — own the Shopify store end-to-end (catalogue, UX, checkout) and build campaign landing pages, lifting conversion rate (CRO) and average order value through data-led testing
- Prepare clear marketing performance reports (spend, cost per lead, conversions, ROI/ROAS) and built AI-powered automation (Claude/GPT) that scales campaign planning, content and reporting — cutting manual workload ~40%
