

27 August 2026

Dear Hiring Manager,

Unilever's conviction that doing business the right way drives superior performance — carried by brands people genuinely love — is exactly the kind of business I want to help grow on the UAE modern-trade shelf. The Key Account Executive – Home Care role fits what I do every week: manage and grow assigned UAE accounts, negotiate listings, pricing and promotions, keep availability, visibility and planograms honest, and turn sell-out, market-share and trade-spend ROI into decisions — the ownership you'll want across Cluster 3 customers like Nesto, the co-ops and Choithram.

Key account management is the spine of my career, and it maps directly onto your Health & Beauty requirement. At Alibaba's Miravia I owned 42 beauty, fragrance and fashion key accounts and grew GMV +30% QoQ — ahead of category — through pricing, assortment and targeted promotions, negotiating terms and listings and reporting channel P&L to the CEO; as PIC Fragrances I onboarded 30+ accounts in two months, including the official distributors of Arabian Oud, Lattafa, Swiss Arabian and Ajmal. Today at DoFreeze I run modern-trade execution across UAE accounts — availability, visibility, planogram, promotions, in-store execution and trade-spend ROI — and my category grounding at Mondelez (sell-in/sell-out, Nielsen, promo effectiveness) means POS and market-share data are already how I build account actions.

Two things set me apart. First, I am already in Dubai on a UAE residence visa and operating inside UAE modern trade and quick-commerce (Noon, Talabat, Careem, Deliveroo) — a multicultural account view from day one, available immediately with no relocation timeline. Second, I lead with market-share and category-led value, not just price. I'll be candid that my hands-on category depth has been in beauty/fragrances and food FMCG rather than home care specifically — but I already speak the language of listings, planograms, trade ROI and sell-out-led corrective action, and I ramp fast on a new category and customer set.

I would be excited to bring this blend of key account ownership, negotiation and data-led execution to Unilever's Home Care business in the UAE. I am available to start immediately and would welcome the chance to discuss how I would approach the cluster sales plan, promotion ROI and shelf execution across Nesto, the co-ops, Westone and Choithram. Thank you for your consideration — I look forward to hearing from you.

Best regards,

**Paula De Francisco Pérez**
