

29 May 2026

Dear Hiring Manager,

Rituals' blend of premium beauty and home fragrance with a strong omni-channel experience is exactly the kind of brand I love growing online. Having run e-commerce for beauty and fragrance brands across the region, I would be excited to help scale Rituals' digital presence.

I manage the DoFreeze e-store end-to-end — UX, conversion, content and promotions — and analyse ROI and ROAS across paid media, social and EDM. At Miravia (Alibaba) I grew 42 beauty and fragrance accounts +30% GMV QoQ on a top-5 global platform, optimising conversion, traffic and retention. I am also fluent in UAE quick-commerce (Noon, Talabat, Careem, Deliveroo) and omnichannel execution.

In full honesty, my hands-on tenure is four-plus years rather than the eight to ten listed — but the depth is there: full P&L exposure, multi-channel budget management and a track record of measurable online growth. I am Dubai-based on a UAE residence visa, bilingual in Spanish and English, and Google E-Commerce and Digital Marketing certified.

If you are open to a candidate who combines beauty-category fluency with strong e-commerce execution, I would welcome a conversation about Rituals' growth plans. I am available to interview at your convenience. Thank you for considering my application.

Best regards,

Paula De Francisco Pérez
