Having managed multi-market strategies across 50+ countries including UAE, Kuwait, and Qatar, I understand the unique dynamics of subscription-based customer acquisition in these markets. The opportunity to own the end-to-end Plus growth engine and work with Deliveroo's sophisticated data infrastructure aligns perfectly with my experience driving +30% GMV growth through data-driven retention strategies.

My data-driven approach to customer segmentation and lifecycle marketing, combined with experience scaling campaigns from zero to 25-50 creators, positions me to optimize CAC and deliver the sophisticated retention strategies Deliveroo Plus requires.

Q: Describe your greatest professional achievement

My greatest professional achievement was driving +30% GMV growth quarter-over-quarter while managing 42 key accounts at Alibaba's Miravia/AliExpress platform. I implemented data-driven customer segmentation strategies and optimized acquisition funnels across beauty and fragrance categories, resulting in significant revenue growth. This achievement demonstrated my ability to scale subscription-style business models through analytical rigor and cross-functional collaboration, directly applicable to Deliveroo Plus's growth objectives.
