

13 May 2026

Dear Hiring Manager,

I'm writing to express my interest in potential Marketing Manager opportunities at Azadea, particularly given your continued expansion across the MENA region and your impressive multibrand portfolio spanning Zara, Massimo Dutti, and Bershka alongside your proprietary brands. Having started my career at Inditex (Massimo Dutti) and now managing multibrand e-commerce operations in Dubai, I see compelling synergies between my fashion-commerce bridge experience and Azadea's omnichannel ambitions in this dynamic market.

My experience directly aligns with the multibrand portfolio management that defines Azadea's success. At Miravia, I delivered +30% GMV growth QoQ while managing 42 key accounts across fashion and beauty categories—experience that translates seamlessly to orchestrating multiple brands within a retail holding structure. I've also led 6 NPD launches end-to-end across 50+ countries at DoFreeze, developing the cross-market coordination skills essential for managing brands across Azadea's diverse MENA footprint. Additionally, my hands-on experience with Glovo's Retail vertical has given me deep insights into multibrand marketplace mechanics and category management.

What differentiates me is my unique combination of fashion retail foundation with modern e-commerce execution capabilities. Beyond my Inditex training, I've successfully integrated brands into UAE's leading quick-commerce platforms—Noon, Talabat, Careem, and Deliveroo—giving me practical knowledge of the digital channels crucial for fashion retail's future. I'm already based in Dubai with UAE residence visa, enabling immediate contribution to your regional operations. My bilingual Spanish-English capabilities also support seamless coordination with international brand partners and headquarters operations.

I'm excited about the opportunity to bring my fashion-commerce bridge expertise to Azadea's continued growth story in the MENA region. I'm immediately available to discuss how my multibrand portfolio management experience and omnichannel execution capabilities can contribute to your team's success. I would welcome the opportunity to explore potential collaborations and share specific insights from my Dubai market experience. Thank you for your consideration.

Best regards,

Paula De Francisco Pérez
