PROFESSIONAL SUMMARY

AI-first growth marketer who builds the stack hands-on with Claude Code and MCP integrations. At DoFreeze, a Claude-based system runs campaign planning, content and reporting (~40% less manual work), and every idea is judged on incremental sales: a purchase-to-enter talabat giveaway beat its control brand +165% to +4.7%. Started out in an accounting department (SAP, Looker).

WORK EXPERIENCE

Brand & Marketing Manager — Oct 2025 – Present

DoFreeze LLC · UAE F&B / FMCG group | 7 brands incl. Befit, Eurocake, SMASH | sold on talabat, Noon, Careem · Dubai, UAE

- Built a Claude-based system that automates campaign planning, content, market research and KPI reporting (~40% less manual work); landing pages built with AI agents; an AI avatar briefs affiliates in several languages
- Giveaways measured like experiments: a purchase-to-enter cashback draw with talabat lifted SMASH daily sales +165% vs +4.7% for a control brand; another bought followers at AED 0.73 each, 8x cheaper than a promoted reel
- Influencer channel from zero: 103 creator activations at AED 81 per content piece (market AED 1,000–3,500); audited the agency report, found reach estimated not measured, and micro-creators at 10–40x the campaign average
- Weekly creative-hook tests across 4 social accounts; Befit Crew affiliate programme (personal codes, tiered commissions); running, padel and yoga communities; a Sun & Sand Sports x Fabletics session that led to a listing proposal
- Scale or stop on data: computed break-even ROAS net of marketplace fees and moved Google spend to Meta; Advantage+ retargeting at 3.7x ROAS in week one; web orders +86% after reviews, bundles and a replenishment flow
