PROFESSIONAL SUMMARY

Highly organized, analytical and hands-on marketing professional with 5 years across FMCG, Beauty and E-Commerce, currently running multi-market brand & marketing for DoFreeze across 50+ countries including GCC, MENA and Africa. I keep the regional marketing engine running: pulling performance data across channels and markets (spend, revenue, ROI/ROAS, conversion, GMV), maintaining trackers and dashboards, and turning them into clear KPI reporting and recommendations for leadership. I coordinate campaigns and launches end-to-end across content, creative, influencer, PR, performance and product — managing timelines, asset requirements, approvals and follow-ups so nothing loses momentum. Earlier, at Alibaba's Miravia, I analysed ROI, ROAS, conversion and retention across 42 accounts to grow GMV +30% QoQ, and at Mondelez I owned sell-in/sell-out reporting and monthly performance reviews. Proactive, detail-obsessed with trackers and documentation, an early adopter of generative AI (Claude/GPT) for reporting and planning, fluent in English, and already based in the UAE with a fully remote setup.

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC • Global FMCG distributor | Brands: Befit, Eurocake, Flair | 50+ countries • Dubai, UAE

- Run marketing across 50+ countries including GCC, MENA and Africa — pulling performance data by channel, market and period (spend, revenue, ROI/ROAS, conversion, GMV), maintaining trackers and dashboards, and turning them into clear KPI reporting, trends and recommendations for leadership
- Coordinate regional campaigns and product launches end-to-end across content, creative, influencer, PR, performance and product teams — managing timelines, asset requirements, launch dependencies, approvals and stakeholder follow-ups, and tracking campaign readiness before go-live
- Manage multiple workstreams in parallel — 6 NPD launches end-to-end (brief, packaging, pricing, go-to-market) across GCC, MENA, Asia, Europe, USA and Africa — keeping owners, next steps and deadlines visible so initiatives keep momentum to completion
- Own marketing operations: A&P budget tracking, vendor coordination, approvals and clean action logs, plus trade & shopper marketing plans by channel across 50+ markets
- Built and scaled the influencer programme from zero — sourcing, briefing, negotiating and coordinating 25–50 creators per campaign plus product sampling/seeding — and run paid media on Meta and Google Ads, analysing ROI/ROAS to optimise performance
- Built AI-powered automation (Claude/GPT) that scales KPI reporting, campaign planning, market research and client-ready decks — cutting manual reporting workload ~40% and accelerating go-to-market across markets
