PROFESSIONAL SUMMARY

Performance-focused digital marketer with 4+ years across E-Commerce, Beauty and FMCG who turns Meta advertising into measurable business results. At DoFreeze I own paid media on Meta Ads (Facebook & Instagram) end-to-end — audience research and targeting (segmentation, retargeting, lookalike audiences), creative A/B testing, budget and spend allocation, and ROI/ROAS reporting — running Google Ads and EDM alongside, and closing the loop into a Shopify store I optimise for conversion rate (CRO) and average order value. Earlier, at Alibaba's Miravia, I analysed ROI, ROAS, conversion and retention across 42 accounts to optimise channel performance (+30% GMV QoQ). Analytical and comfortable with data and fast test-and-learn cycles, and an early adopter of generative AI (Claude/GPT) to scale campaign planning, creative and reporting. Business Administration graduate, fluent English, with a fully equipped dual-monitor home-working setup.
