PROFESSIONAL SUMMARY

AI-native growth marketer who starts from why people do what they do and turns it into conversion. Not a traditional marketer: I use generative AI (Claude / GPT) across my whole day — research, content, design, testing, prototyping and analysis — and I built the AI marketing system behind it at DoFreeze, cutting manual work ~40% and letting me ship an idea as a live landing page or experiment in hours. I own customer journeys end-to-end on Shopify (UX, messaging, checkout) to lift conversion and retention, read consumer behaviour to grow accounts (42 accounts, +30% GMV QoQ at Alibaba's Miravia), and I build things from zero with no playbook. Comfortable with data but never losing sight of the human behind it. Based in Dubai, set up to work remotely.

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC · Global FMCG distributor | Brands: Befit, Eurocake, Flair | 50+ countries · Dubai, UAE

- Use generative AI (Claude / GPT) end-to-end across my day — research, content, design, A/B testing, prototyping and analysis — having built the AI marketing system that automates campaign planning, market research, content and reporting, cutting manual work ~40% and letting me ship ideas as experiments in hours, not days
- Own the brand's Shopify store end-to-end — customer journey, UX, catalogue, collections, checkout and messaging — lifting conversion (CRO) and average order value by tuning it to how people actually shop
- Build landing pages, prototypes and pitch decks with AI to turn ideas into real, testable customer experiences fast, then iterate on what the data and customer response show
- Built and scaled the influencer programme from zero with no playbook — sourcing, briefing and managing 25–50 creators per campaign plus sampling and seeding — to earn awareness, trust and UGC that convert
- Run paid media on Meta Ads (Facebook & Instagram) and Google Ads with continuous creative A/B testing, reading ROI/ROAS and funnel data to improve conversion and retention
- Lead NPD end-to-end for 6 launches (brief, positioning, pricing, go-to-market) across 50+ markets — translating what customers actually want into products and messaging that land

Key Account Manager – Beauty, Fragrances & Fashion

Nov 2023 – Oct 2025

Miravia / AliExpress (Alibaba Group) · Top 5 global e-commerce | 100K+ employees · Madrid, Spain

- Grew 42 key accounts +30% GMV QoQ by reading consumer behaviour and decision-making — pricing, assortment and promotion choices tuned to how shoppers really buy in beauty, fragrance and fashion
- Continuously analysed conversion, traffic, retention and ROI/ROAS to optimise channel performance — data-led, but always with the customer behind the number
- Created and led the Beauty Club and Hot on Social projects, building brand visibility, loyalty and trust and positioning Miravia as a beauty and lifestyle destination
- Led category expansion as PIC Fragrances, onboarding 30+ new stores in two months through trend-driven products and promotions on a top-5 global e-commerce platform

Account Manager – XL Accounts

Sep 2022 – Nov 2023

Glovo · Quick-commerce leader | €500M+ revenue | 10K+ employees · Madrid, Spain

- Helped build Glovo's Retail vertical from scratch — onboarding fashion and lifestyle brands and expanding a quick-commerce marketplace into new categories without a rigid playbook
- Drove GMV growth for strategic accounts through data-led planning and bespoke marketing activations, optimising the customer journey across a web + mobile platform
- Led cross-functional teams across marketing, logistics and CX to ship campaigns quickly and lift order volume

Trainee – Category & Consumer Insights

Aug 2021 – Aug 2022

Mondelez International · Global FMCG | €36B annual revenue | 90K+ employees · Madrid, Spain

- Ran sell-in/sell-out and promotional-effectiveness analysis for the chocolate category — early grounding in why people buy and how insight turns into action
- Identified consumer-backed growth opportunities that fed NPD launches (Milka Spread, Mini Suchard)
