PROFESSIONAL SUMMARY

Systems-minded marketing and operations professional with 4+ years across E-Commerce, Beauty, Fashion and FMCG, specialising in AI-enabled ways of working and scalable content and campaign production. At DoFreeze I built and own an AI-powered marketing-automation system (Claude / generative AI) that turned campaign planning, content, research and reporting into standardised, repeatable workflows — cutting manual workload ~40% and letting a lean team produce more, faster, without adding headcount. I design and document processes, briefing formats and approval flows, run content and campaign production end-to-end (brief to delivery), and plan resourcing across always-on and seasonal peaks — coordinating 25–50 creators plus cross-functional teams against tight, concurrent deadlines. Trained inside luxury/fashion e-commerce (Alibaba's Miravia; Inditex / Massimo Dutti) and fluent in catalogue, collections and asset workflows. Business Administration graduate, already based in Dubai.

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC · Global FMCG distributor | Brands: Befit, Eurocake, Flair | 50+ countries · Dubai, UAE

- Built and own an AI-powered marketing-automation system (Claude / generative AI) that turned campaign planning, content creation, market research and KPI reporting into standardised, repeatable workflows — cutting manual workload ~40% and scaling output across 50+ markets without adding headcount at the same rate
- Designed, documented and maintain the content and campaign production process end-to-end — brief intake, templates, briefing formats, review and approval flows — reducing rework and keeping delivery trackable, on-time and scalable
- Evaluate, pilot and roll out generative-AI and automation tools (generative design, content generation, automated reporting), training the team to embed them into day-to-day ways of working rather than treat them as side projects
- Lead end-to-end project management for 6 NPD launches (brief → packaging → go-to-market), coordinating cross-functional design, product and commercial teams against tight, concurrent timelines
- Plan resourcing and capacity across always-on demand and campaign/seasonal peaks — briefing and managing 25–50 external creators per campaign plus content, sampling and production schedules across channels
- Own the Shopify e-store's catalogue, collections and content — structuring, tagging and reusing product assets across campaigns and channels for fast, consistent go-to-market

- Owned the Flash Sales channel for Beauty, Fashion & Home, running deadline-driven campaign production and asset delivery across many concurrent brand activations

- Partnered cross-functionally with marketing, design and commercial teams to align creative and content output with campaign calendars and business priorities
- Tracked conversion, traffic, retention and ROI to prioritise work and continuously improve how campaigns and content were planned and delivered

Aug 2021 – Aug 2022
