PROFESSIONAL SUMMARY

B2C brand and growth marketer with 4+ years across hyper-growth global tech, e-commerce and FMCG, now leading Brand & Marketing in Dubai. I build brands that earn attention and drive results: I run go-to-market product launches end-to-end (audience strategy, messaging, positioning), design full-funnel campaign calendars from acquisition to retention, and turn customer behaviour into data-driven stories and content that convert. I bring analytical rigour to everything — running paid-media experiments (Meta / Google, A/B testing, ROAS) and distilling data into actionable insights — and I scale creative through repeatable playbooks: at DoFreeze I built an AI-powered marketing-automation system (Claude / generative AI) that operationalised planning, content and reporting across 50+ markets. Trained inside hyper-growth global tech (Alibaba's Miravia, Glovo) and executing growth in the UAE today. Business Administration graduate (CUNEF), already based in Dubai.
