PROFESSIONAL SUMMARY

Digital marketer and early adopter of generative AI (Claude, ChatGPT, Gemini) who uses AI hands-on every day to plan campaigns, build content and automate reporting — exactly the AI-first profile this role calls for. At DoFreeze I run performance marketing on Meta Ads (Facebook & Instagram) and Google Ads end-to-end — audience building, creative A/B testing, budget and spend allocation, ROI/ROAS optimisation — and own a Shopify store I optimise for conversion rate (CRO). I built an AI-powered marketing automation system (Claude/generative AI) that automates campaign planning, content, market research and KPI reporting, cutting manual workload ~40%. Earlier, at Alibaba's Miravia, I analysed ROI, ROAS, conversion and retention across 42 accounts (+30% GMV QoQ). Business Administration graduate, Google Digital Marketing & E-Commerce certified, fluent English — keen to extend a data-driven, test-and-learn approach into SEO, AEO and generative-engine (GEO) search.
