

20 August 2026

Dear Hiring Manager,

A hands-on, high-autonomy role where paid-social strategy meets execution is exactly where I do my best work. At DoFreeze I run Meta, Instagram and TikTok acquisition end-to-end every week — from audience research and creative through A/B testing, budget scaling and ROAS reporting — so shaping campaign performance and driving ROI across markets is my day-to-day.

I develop the paid-media strategy, budgets and KPIs, then make the scaling and kill decisions the numbers point to. I write and adapt ad copy and guide creative, run structured A/B tests across audiences, creative and placements, and keep a close eye on tracking and dashboards so attribution stays honest. I've also integrated AI-driven optimisation into the workflow — Claude/GPT automation that speeds up planning, creative variations and reporting. At Alibaba's Miravia I analysed ROI, ROAS, conversion and retention across 42 accounts to grow GMV +30% QoQ, so I'm comfortable owning performance with minimal oversight.

One honest note: my paid-social experience is in e-commerce, beauty and FMCG rather than trading, brokerage or fintech — so I'd be learning your product and audience, though the acquisition mechanics, creative testing and attribution discipline transfer directly. I'm fully equipped for remote, full-time work with a dedicated dual-monitor home office, fluent in English, and used to coordinating across design and content teams asynchronously.

I'd welcome the chance to show how I'd build, test and scale global paid-social campaigns for STARTRADER — and I'm happy to share detail on channels, budgets and the results I've driven. Thank you for considering my application.

Best regards,

Paula De Francisco Pérez
