PROFESSIONAL SUMMARY

Operations-minded e-commerce professional with 4+ years across D2C, marketplace and quick-commerce — scoped exactly like this role: bringing structure, SOPs and systems to fast-paced, high-growth businesses and owning day-to-day operations end-to-end. Currently own the day-to-day operations of DoFreeze's D2C Shopify business (catalogue, pricing, listings, promotions, checkout, UX) and built an AI-powered (Claude/GPT) operations layer — documented SOPs, workflows and templates that standardised launches, content and reporting across 50+ markets and cut manual workload ~40%. Coordinate core e-commerce operations across UAE quick-commerce (Noon, Talabat, Careem, Deliveroo) and modern trade — onboarding, listings, promotional mechanics, stock availability and retail execution — with logistics and operations partners. A practical problem-solver who identifies bottlenecks and turns them into repeatable solutions, works with high autonomy, and thrives on ownership. Genuine health & wellness DTC relevance (manages DoFreeze's Befit brand). Spanish national with full right to work in Spain / the EU, comfortable in lean, remote global teams across time zones.

DoFreeze LLC · Fast-growing global FMCG / D2C distributor | Brands: Befit (health & wellness), Eurocake, Flair | 50+ countries · Dubai, UAE

- Build, document and continuously improve the operating systems behind a fast-growing D2C business — designing SOPs, workflows and reusable templates for launches, content, campaign planning and reporting, and codifying them into an AI-powered (Claude/GPT) automation layer that standardised execution across 50+ markets and cut manual workload ~40%

- Identify operational bottlenecks and inefficiencies and turn them into practical, documented solutions — e.g. standardising 6 end-to-end NPD launches (brief → packaging → pricing → go-to-market) into a single repeatable workflow — bringing structure, accountability and continuous improvement to a lean, high-autonomy team
- Coordinate cross-functional initiatives across marketing, supply/logistics, external partners and agencies — keeping multiple projects, priorities and deliverables moving forward with minimal supervision
