PROFESSIONAL SUMMARY

Ecommerce and digital-trading professional with 4+ years across D2C, marketplace and quick-commerce, scoped exactly like this role: owning the operational execution of a Shopify storefront so the site runs accurately and at pace for Trading, Marketing and Merchandising. Currently own DoFreeze's D2C Shopify store end-to-end — product setup, pricing, categorisation, collections, onsite content, discounts, checkout and UX — running day-to-day operations, catalogue integrity and launches while lifting conversion (CRO) and average order value (AOV) through data-led merchandising. Manage product catalogues, local/global pricing and promotional mechanics across UAE quick-commerce (Noon, Talabat, Careem, Deliveroo), plus stock availability and onsite accuracy with Operations. Previously ran the Beauty, Fragrances & Fashion category on Alibaba's Miravia marketplace (42 accounts, +30% GMV QoQ) with weekly promotions, onsite content and conversion analytics. Highly organised completer-finisher with a bias for execution, genuine affinity for the fitness/active-lifestyle consumer (manage DoFreeze's Befit health & wellness brand), and already based in Dubai on a UAE residence visa.

- Oversee stock availability, product listings, pricing and onsite accuracy across UAE quick-commerce (Noon, Talabat, Careem, Deliveroo) in partnership with Operations and Logistics, aligning backend systems with the frontend customer experience
