PROFESSIONAL SUMMARY

Results-driven digital & growth marketing manager with 4+ years owning the marketing funnel end-to-end — from awareness and demand generation through nurturing and conversion — across E-Commerce, FMCG, Beauty and Fashion. At DoFreeze I run multi-channel campaigns across paid media (Google Ads, Meta Ads), SEO/organic, email/EDM, social, content and partnerships; manage budgets to maximise ROI and ROAS; track CAC, cost per lead, conversion, traffic and revenue; build dashboards and performance reports; run continuous A/B testing; and guide content, design and creator teams while leading brand positioning and messaging. Earlier, as a Key Account / Account Manager at Alibaba's Miravia and Glovo, I partnered directly with sales and commercial teams — aligning marketing with revenue and growing GMV +30% QoQ across 42 accounts. Early adopter of generative AI (Claude/GPT) to scale content, campaign planning and analytics. Excellent English (C1), fully set up for remote work with distributed teams.

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC • FMCG e-commerce & distribution | Brands: Befit, Eurocake, Flair | 50+ countries • Dubai, UAE

- Own the marketing funnel end-to-end — awareness, demand generation, nurturing and conversion — developing and executing multi-market strategy aligned with growth goals across 50+ markets
- Lead and optimise multi-channel campaigns across paid media (Google Ads, Meta Ads — Facebook & Instagram), SEO/organic, email/EDM, social, content and influencer partnerships — managing budgets and allocating spend to maximise ROI and ROAS
- Track and report performance — CAC, cost per lead, conversion rate, traffic, ROAS and revenue — building dashboards and clear reports, and running continuous A/B testing to refine targeting, messaging and budget allocation
- Improve landing pages and store UX from a conversion perspective (CRO) — own the Shopify e-store end-to-end (catalogue, UX, checkout) — lifting conversion rate and average order value through data-led testing
- Guide messaging and brand positioning and direct content, design and creator teams — briefing agencies/contractors and scaling an influencer/UGC programme from zero (25–50 creators per campaign) to strengthen brand visibility and engagement
- Built AI-powered automation (Claude/GPT) that scales campaign planning, content and KPI reporting — cutting manual workload ~40% and accelerating go-to-market
