PROFESSIONAL SUMMARY

Growth and performance marketer with 4+ years across E-Commerce, FMCG and Beauty who owns full-funnel campaigns and builds AI into the marketing engine. At DoFreeze I run demand generation hands-on — planning, launching and optimising paid acquisition on Meta Ads (Facebook & Instagram) and Google Ads across 50+ markets, building landing pages, email/EDM sequences and conversion funnels, and running test-and-learn against CAC, ROAS, conversion rate and CTR/CPC/CPM. My differentiator is AI: I built a working generative-AI (Claude/GPT) automation system that drafts campaign plans, content, competitor/market research, personalised outbound and KPI reporting — the same 'deploy LLM agents / leverage AI tools' mandate this role describes. Earlier, at Alibaba's Miravia, I analysed ROI, ROAS, conversion and retention across 42 accounts (+30% GMV QoQ). Analytical, experiment-driven and self-starting; Spanish native and fluent English (C1), working comfortably within European (CET) hours.

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC · Global FMCG e-commerce distributor | Brands: Befit, Eurocake, Flair | 50+ countries (GCC, MENA, Europe, Asia, USA, Africa) · Dubai, UAE (remote across 50+ markets)

- Built and deployed a generative-AI (Claude/GPT) marketing automation system that autonomously drafts campaign plans, content, competitor and market research, personalised outbound and KPI reporting — plus client-ready decks and landing pages — cutting manual workload ~40% and accelerating campaign execution across 50+ markets
- Own full-funnel demand generation end-to-end: plan, launch and optimise paid acquisition on Meta Ads (Facebook & Instagram) and Google Ads — audience building, budgets, creative A/B testing, UTM tracking and daily optimisation against CAC, ROAS, conversion rate and CTR/CPC/CPM
- Build, test and optimise landing pages, email/EDM sequences and conversion funnels — running continuous experimentation on messaging, offers and creative to lift conversion rate and lower cost per acquisition
- Own the brand's Shopify store end-to-end (catalogue, UX, checkout), lifting conversion rate (CRO) and average order value through data-led merchandising — closing the loop from ad click to purchase
- Write campaign messaging, briefs and marketing content, and partner cross-functionally with design, content and commercial stakeholders to ship demand-generation programs and go-to-market across markets and languages
- Track and report performance in Power BI / Looker / Tableau and Salesforce, turning campaign and funnel data into data-driven optimisation decisions and recurring stakeholder readouts
