PROFESSIONAL SUMMARY

Commercially-driven digital marketing and e-commerce growth manager with 4+ years turning online visibility into measurable revenue across E-Commerce, FMCG, Beauty and Fashion. At DoFreeze I own the Shopify store end-to-end — catalogue, product content, category structure, pricing, promotions, UX and checkout — lifting conversion rate (CRO) and average order value through data-led merchandising, and grow demand across paid media (Google Ads, Meta Ads), SEO/organic, email/EDM lifecycle campaigns, landing pages and partnerships while managing budgets to maximise ROI and ROAS. I manage large product catalogues across 50+ markets and track conversion, traffic, AOV and revenue in dashboards, tying every activity to commercial outcomes rather than vanity metrics. Earlier, as a Key Account Manager at Alibaba's Miravia and Glovo I sold to and through businesses, resellers and distributors — growing GMV +30% QoQ across 42 accounts — a genuine B2B commercial angle for qualified-lead, wholesale and reseller growth. Early adopter of generative AI (Claude/GPT), a rare edge for AEO/GEO and AI-generated search. Excellent written English (C1), fully set up for remote work.

WORK EXPERIENCE

Brand & Marketing Manager

Oct 2025 – Present

DoFreeze LLC • FMCG e-commerce & distribution | Brands: Befit, Eurocake, Flair | 50+ countries • Dubai, UAE

- Own the Shopify e-commerce store end-to-end — product information, descriptions, imagery, category structures, pricing, stock, promotions and checkout journey — lifting conversion rate (CRO) and average order value through data-led merchandising across a large multi-brand catalogue
- Grow online revenue through segmented promotions, bundles, cross-sell/upsell and abandoned-cart recovery, and build high-converting landing pages for retail, wholesale and reseller audiences, improving CTAs, forms and checkout via continuous A/B testing
- Plan and optimise paid advertising across Google Ads and Meta Ads (Facebook & Instagram) — audience building, creative testing, remarketing — managing budgets to improve cost per lead, CAC and ROAS (Google Shopping / Performance Max / Merchant Center feeds ready to extend)
- Build segmented email marketing and automated lifecycle campaigns (EDM) — launches, promotions, repeat-order reminders, cart recovery and reactivation — to grow purchase frequency and repeat revenue
- Own organic and content strategy (search-intent-led product, category and FAQ content) and apply generative AI (Claude/GPT) to optimise toward AI-generated search results (AEO/GEO) — cutting content and campaign-planning workload ~40%
- Analyse campaign, sales and website data to identify what drives revenue, building weekly/monthly dashboards on conversion, traffic, AOV, ROAS and marketing-attributed revenue with clear attribution to commercial outcomes
