Dear Hiring Manager,

Influencer marketing at regional scale, run AI-first — that's the exact intersection I work at, so talabat's Sr. Specialist role reads like it was written for how I like to build. I'm a Dubai-based influencer & brand marketer who built a creator programme from zero and runs it with a generative-AI toolkit, and I'd bring genuine hunger and ownership to owning influencer across MENA.

The core of the role is what I already do. At DoFreeze I built the influencer programme from scratch — sourcing, briefing, negotiating and managing 25-50 creators per campaign (paid + organic), plus sampling and seeding — and I run it across 50+ markets, integrated into social (Instagram/TikTok), digital, CRM and quick-commerce, with paid amplification on Meta and Google Ads. I plan and execute end-to-end, coordinate creators and agencies, deliver on time and on budget, and measure what matters — reach, engagement, EMV, creator effectiveness, cost efficiency and ROI/ROAS — feeding it back into the next plan. I'm used to juggling multiple stakeholders and markets at once and keeping activity consistent and on-brand.

Where I'd add something rare is the AI mandate in this role. I'm AI-first: I already use generative AI (Claude/GPT) for creator discovery and shortlisting, content evaluation, campaign planning and automated reporting and summaries — cutting ~40% of the manual work and speeding briefs, recaps and reviews. That's precisely the 'champion AI adoption across the influencer workflow' brief, from someone who builds these systems rather than just talks about them. I'll be straight that my experience is a few years rather than seven, but I've built and scaled fast, I bring real drive and a test-and-learn mindset, and I'm hungry to grow this at talabat's scale.

I'd love to help talabat set the regional standard for AI-powered influencer marketing, and I can walk through creator-programme, campaign and AI-automation case studies from my current work. I'm already based in Dubai and ready to start fast. Thank you for your consideration — I look forward to hearing from you.

Best regards,

Paula De Francisco Pérez
