

07 July 2026

Dear Talabat Talent Acquisition Team,

Talabat has defined on-demand in MENA, and tMart — 30-minute delivery at hypermarket prices — is exactly the kind of fast, data-driven retail I want to help scale. Having integrated FMCG brands into talabat from the partner side, I would relish moving onto the platform to own campaign management, content and merchandising for tMart.

In my current role I own an e-commerce store end-to-end on Shopify — catalogue, categorisation, collections, merchandising and promotions — lifting conversion and AOV through data-led merchandising, and I plan the campaign calendar in sync with the trade-marketing calendar across 50+ markets. At Alibaba's Miravia I owned the Flash Sales campaign channel for Beauty, Fashion & Home and grew 42 key accounts +30% GMV QoQ. I measure every activation against CVR, AOV, CTR and incremental orders, then turn the read-out into the next round of planning, creative and merchandising.

What I would bring on day one: hands-on UAE quick-commerce experience across talabat, Noon, Careem and Deliveroo — rare in this market; fluency turning dashboards into merchandising decisions; and an AI-first way of working (I build Claude/GPT automation for campaign planning, content and reporting). I am already in Dubai on a UAE residence visa — no relocation or sponsorship needed — and I am bilingual Spanish/English.

I would love to walk you through how I would structure tMart's campaign calendar and post-campaign reporting in the first 90 days. I am available to start immediately and can be reached at paulich98@hotmail.com or +971 50 386 3656. Thank you for considering my application.

Best regards,

Paula De Francisco Pérez
