

11 June 2026

Dear Hiring Manager,

I am applying for the Ecommerce Manager role in Dubai (Job #174114). Colgate-Palmolive's products are trusted in more households than any other brand in the world, and the chance to translate that trust into digital-shelf excellence — turning rich content and data into measurable conversion across Oral, Personal, Home and Pet Care — is exactly the challenge I am looking for. I already build this every day in Dubai's FMCG and quick-commerce market.

As Brand & E-Commerce Manager at DoFreeze (Befit, Eurocake, Flair), I own the Shopify store end-to-end and run the UAE quick-commerce digital shelf — listings, content, promotions and net-sales delivery — using ROI/ROAS analytics and scorecards to drive conversion and corrective action. Earlier, trained at Alibaba (Miravia/AliExpress), I managed 42 key accounts to +30% GMV growth QoQ through pricing, assortment and promotion strategy, reporting on Flash Sales P&L directly to the CEO. That blend of digital commerce strategy, customer alignment and full-funnel execution maps directly to this role's remit.

What sets me apart for a UAE FMCG mandate: hands-on experience across every key e-retailer and quick-commerce platform in this market — Noon, Talabat, Careem and Deliveroo — plus FMCG category-planning foundations from Mondelez and an AI-first approach (I built generative-AI automation for content, campaign planning and KPI reporting that cut manual workload ~40%). I am already based in Dubai on a UAE residence visa, so there is zero relocation cost or delay, and I work fluently in English and Spanish.

I would welcome the chance to discuss how I can accelerate Colgate-Palmolive's digital commerce growth in the region. I am available to start at short notice and can share a short portfolio of e-commerce and digital-shelf work on request. Thank you for your consideration — I look forward to speaking with you.

Best regards,

Paula De Francisco Pérez
