

19 June 2026

Dear Hiring Manager,

Building a brand and scaling its growth from the ground up — strategy, audience, content and paid media — is what I do at DoFreeze, so DeFi Technologies' Marketing & Brand Growth Manager role is an interesting fit. I'd bring a hands-on, AI-first approach to growing your brand.

I own brand strategy, positioning and go-to-market, and I run digital, social and paid-media campaigns to ROI and ROAS. I built an audience-and-community programme from zero to 25–50 creators per campaign at DoFreeze, and at Alibaba's Miravia I created the Beauty Club and Hot on Social projects while growing 42 accounts +30% GMV QoQ.

My differentiator is being AI-first: I built marketing automation with Claude that cut manual workload ~40%, scaling content, campaign planning and analytics. While my background sits in FMCG, beauty and e-commerce rather than crypto, the brand-growth playbook is highly transferable. I'm Dubai-based on a UAE residence visa and bilingual in Spanish and English.

I'd welcome a conversation about how I can build and grow DeFi Technologies' brand. I'm available to interview at your convenience and can start immediately. Thank you for your consideration.

Best regards,

Paula De Francisco Pérez
