Dear Hiring Manager,

Deliveroo Hop sits exactly where my experience lives — quick-commerce, category management and vendor relationships. I already integrate brands into Deliveroo, Talabat, Noon and Careem from the brand side at DoFreeze, and I helped build Glovo's retail vertical, so owning a Hop category would be a natural fit.

Range, pricing, promotions and vendor negotiation are my core. At Alibaba's Miravia I owned category performance across 42 accounts and grew GMV +30% QoQ through range selection, pricing and SKU-led promotions, deep-diving performance vs plan. At Glovo I sourced and onboarded vendors and negotiated commercial contracts, and at Mondelez I built a category-planning foundation (sell-in/sell-out, promo effectiveness).

I'm analytical and comfortable living in spreadsheets and category scorecards, with genuine quick-commerce fluency that is rare in the market. I am already based in Dubai on a UAE residence visa — no relocation or sponsorship needed — thrive in fast-paced, ambiguous environments, and work bilingually in Spanish and English.

I'd welcome the chance to discuss how I can grow a Deliveroo Hop category through smart range, pricing and vendor partnerships. I'm available to interview at your convenience and can start immediately. Thank you for your consideration.

Best regards,

Paula De Francisco Pérez
