

23 June 2026

Dear Founding Team,

I'm writing to apply for the Marketing Executive role building VAULT and Vyonic. Launching a flagship fitness performance centre and a performance-optimisation ecosystem from the ground up — and owning how both show up in Dubai — is exactly the kind of zero-to-one, full-ownership brief I look for. I think in campaigns, I move fast on data, and I'd relish the chance to put two ambitious brands on the map alongside the founding team.

In my current role I own the full marketing function for DoFreeze's brand portfolio — strategy, paid media, content, influencer and go-to-market — so the breadth this role demands is my day-to-day, not a stretch. I've led 6 product launches end to end, from brief and positioning through pricing and pre-launch activation; built an influencer programme from zero to 25–50 creators per campaign with the UGC and community to match; and run Meta and Google paid media where I scale what the data rewards. Earlier, managing 42 key accounts at Alibaba's Miravia, I drove +30% GMV growth QoQ — I'm comfortable carrying a number, not just a brand.

Two things set me apart for a pre-launch build. First, I'm an AI-first marketer: I've built generative-AI workflows (Claude/GPT) that take a campaign from brief to live in a fraction of the usual time — invaluable when a small founding team needs to move fast and punch above its weight. Second, I helped build Glovo's Retail vertical from scratch, onboarding brands and launching new categories, so standing something up before it exists is familiar ground. I'm already in Dubai on a UAE residence visa — no sponsorship, no relocation, ready to drive activation from day one of the Q3 2026 runway.

I'd love to walk the founding team through how I'd approach the pre-launch and first 90 days for VAULT and Vyonic. I'm available to start quickly and can share campaign work and launch examples on request. Thank you for your consideration — I'd be excited to help these two brands make a mark in Dubai and beyond.

Best regards,

Paula De Francisco Pérez
