

22 June 2026

Dear Hiring Manager,

I'm applying for the Marketing Manager MEA role at QSC. Coordinating multinational, cross-functional teams to run campaigns that resonate across the MEA region is precisely what I do today — I plan and execute marketing across MEA and 50+ markets, aligning every campaign to clear business goals.

Your brief spans launch management, digital marketing and events — all central to my experience. I run paid social, LinkedIn/web and email campaigns with rigorous KPI analysis, lead launch projects across finance, legal and timelines, and manage budgets with constant tracking. I've delivered measurable impact, including +30% GMV QoQ across 42 accounts at Alibaba's Miravia.

I'm a self-motivated strategic thinker with an entrepreneurial mindset and strong content/copywriting skills — recently amplified by a generative-AI content workflow I built. I'm comfortable in international, casual-but-dynamic cultures, fluent in English (Spanish native), and already in Dubai with a residence visa. An affinity for technology rounds out the fit for an AV&C innovator like QSC.

I'd be glad to discuss how I can drive QSC's regional marketing across MEA. I'm available this week and happy to share examples of multi-market campaigns I've led — thank you for your consideration.

Best regards,

Paula De Francisco Pérez
